

LETTER OF ENDORSEMENT:

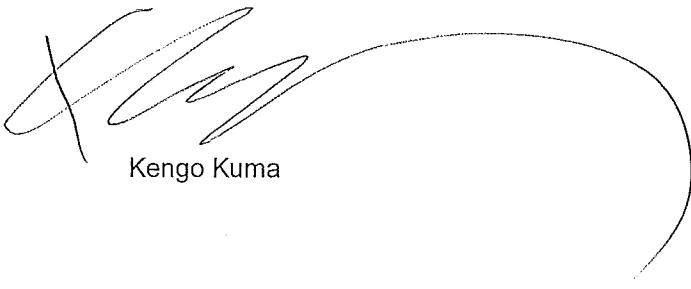

GERALD ROWLETT, WESTLAKE DEVELOPMENT GROUP

June 11, 2018

To whom it may concern:

The work that we do as architects is always dependent on the beauty and craftsmanship of the people helping to make our work real. For our design at Suteki House, Street of Dreams in Happy Valley, we were able to work with Gerald Rowlett, a craftsman at heart and who helped us realize our dream of quality, materiality, and something great for others to share. The schedule was amazingly hard, but Gerald's abilities and dedication were the true strength during the process of design and construction.

It is with deep gratitude that I write this message of support, for we could not have delivered excellence in such a short amount of time without him and his teams. Because of him, we are able to do our work with satisfaction and without compromise. It is indeed an honor.
